University of Wyoming
Ecosystem Science and
Management Department
karen.vaughan@uwyo.edu
307.766.3414

EDUCATION

Ph.D.	2008	Soil Science, University of Idaho, Moscow <i>Pedogenesis at Craters of the Moon National Monument and Preserve</i>
M.S.	2004	Soil Science, University of Maryland, College Park <i>Hydromorphology of Mid-Atlantic Piedmont Floodplain Soils</i>
B.S.	2001	Wildlife Conservation, University of Delaware, Newark
B.S.	2001	Entomology, University of Delaware, Newark

PROFESSIONAL APPOINTMENTS

2015 - present	Assistant Professor of Pedology, Ecosystem Science and Management Department, University of Wyoming
2011 - 2015	Assistant Professor of Soil Ecology, Natural Resources Management and Environmental Sciences Department, California Polytechnic State University, SLO
2008 - 2011	Soil Scientist, United States Department of Agriculture - Natural Resources Conservation Service Snow Survey Program and Soil Climate Analysis Network, Utah
2004 - 2008	Graduate Research Assistant, University of Idaho
2006 - 2008	Subsurface Science Graduate Fellow, Inland Northwest Research Alliance
2004	Soil Scientist, Bluefields, Nicaragua
2001 - 2004	Graduate Research Assistant, University of Maryland, College Park

PUBLICATIONS IN REVIEW OR UNDER REVISION

1. Berkowitz, J., M. Vepraskas, **K. Vaughan**, and L. Vasilas. Development and application of the hydric soil technical standard. Under revision. Submitted May 2020 as an invited review to SSSAJ.

2. Brevik, E. and K. Vaughan. Degrees earned by faculty teaching in soil science preparatory programs at universities in the USA. In review. Submitted September 2020 to Natural Sciences Education.

3. Zhuojun Zhang; Zhiqi Zhao; Congqiang Liu; Oliver A. Chadwick; Chao Liang; Yongfeng Hu; **Karen L. Vaughan**. Vertical distributions of phosphorus concentration and speciation across a forested climosequence. In review. Submitted July 2020 to *Geochimica et Cosmochimica Acta*.

student advisee

PUBLICATIONS IN PROGRESS WITH PLANNED SUBMISSION IN 2020

1. Ash-Kropf, Z., **K.L. Vaughan**, and L. van Diepen. Impacts of multi-scale climatic shifts on pedogenesis in high alpine regions of the Rocky Mountains, Wyoming, USA. In progress. Planned submission to *Geoderma Regional*.

2. Jennings, L., T., Carter, A. Berhe, E. Marin-Spiotta, A. Gallo, T. Ghezzehei, Y. Pressler, and **K. Vaughan***. Towards diverse representation in soil science. In progress. Invited review for SSSAJ. * corresponding author

3. Pennino, A., **K.L. Vaughan**, J. Norton, and J. Mercer. Early stage soil development following geomorphic reclamation. In progress. Planned resubmission to SSSAJ.

4. **Vaughan, K.L.**, R. Aleman, C. Duball, and A. Schwyter. Remote delivery of field experiences in soil sciences. Invited submission to special section. *Natural Sciences Education*. In progress.

student advisee

TEACHING

Courses taught at the University of Wyoming

- REWM 1000 Wyoming Wildlands - 3 credits, co-instructor (fall 2018, 2019, 2020)
- SOIL 4120/5120 Soil Morphology and Genesis lecture and 2, 4-hr laboratory sections - 4 credits (fall 2015, 2016, 2017, 2018, 2019, 2020)
- SOIL 2010 Introduction to Soil Science lecture and 3, 3-hr laboratory sections - 4 credits (spring 2016, 2017, 2018, 2019)
- SOIL 4590/5590 Soil Morphology Field Experience, weekly meetings plus 5-day field course on National Park Service land with Colorado State University and the National Park Service - 1 credit (Dinosaur National Monument in fall 2017 & 2018, Black Canyon of the Gunnison National Park in fall 2019)
- SOIL 4590 Soil Judging - 1 credit (spring 2016, 2017, 2018, 2019, 2020; fall 2016, 2017, 2018, 2019)

Courses taught at the University of Alaska, Fairbanks

NRM 489/489 Arctic Soils Field Morphology - summer 2018 (co-instructors Kholdov & Weindorf)

Courses taught at California Polytechnic State University

SS 121 Introduction to Soil Science lecture and laboratory - 4 cr.; SS 321 Soil Morphology lecture and laboratory - 4 cr.; SS 400 Special Topics for Advanced Undergraduates; SS/NR 421 Wetlands lecture and laboratory - 4 cr.; SS 422 Soil Ecology lecture and laboratory - 4 cr.; SS 444 Soil Judging - 2 cr.; SS 461

Senior project I - 1 cr.; SS 462 Senior project II - 1 cr.; SS 463 Senior project III - 1 cr.; SS 500 Individual study in soil science; SS 600 Graduate thesis research.

AWARDS AND RECOGNITION

- Early Career Faculty Own It! Awardee through the Wyoming EPSCoR. 2019.
- Awarded as "Top Prof" by The Cap and Gown Chapter of Mortar Board at the University of Wyoming. 2019.
- Nominated for the COANR Lawrence Meeboer Classroom Teaching Award. 2018.
- Nominated for Early Career Faculty Own It! Award through the Wyoming EPSCoR. 2018.
- #273 of 365 Women in STEM, <https://twitter.com/365womeninSTEM/status/938118965246808064>, 2017.
- Identified as one of "13 Soil Scientists Driving Sustainability" by foodtank, <https://foodtank.com/news/2017/12/sustainable-soil-scientists/>, 2017.
- Selected as Research Mentor for Wetland Ambassadors Graduate Research Fellowship through the Society of Wetland Scientists international student exchange. 2017.
- Popular press article was written about my publication: Hmielowski, T. 2017 Teaching soils with new technology. CSA News.
- Nominated for Early Career Faculty Own It! Award through the Wyoming EPSCoR. 2017
- President's Diversity Award for work in creating a new minor, Indigenous Studies in Natural Resources at California Polytechnic State University. 2016 (together with Verma, Pulitano, Martin, and Piirto)
- Wyoming Women in Science and Engineering (WWISE) travel grant, Wyoming EPSCoR. 2016
- Nominated (not awarded) for the University of Wyoming, College of Agriculture and Natural Resources Lawrence Meeboer Agricultural Classroom Teaching Award. 2015
- Soil Science Society of America, Association of Women Soil Scientists Mentoring Award. 2013
- Utah NRCS representative for the Emerging Leadership Development Program, USDA-NRCS. 2010
- Presentation Excellence Award, Graduate Student Expo, University of Idaho. 2008
- Leadership Award, Graduate and Professional Student Association, University of Idaho. 2008
- Western Society of Soil Science, first place award for presentation excellence. 2007
- American Association for the Advancement of Science (AAAS) Pacific Division, Robert I. Larus Award for best overall student presentation. 2007
- Pacific Northwest Society of Wetland Scientists Student Travel Scholarship. 2007
- Inland Northwest Research Alliance Graduate Fellowship. 2007
- Research Excellence Award, Graduate Student Expo, University of Idaho. 2007
- Inland Northwest Research Alliance Graduate Fellowship. 2006
- Teaching Excellence Award, University of Idaho. 2005

GRANTS AWARDED (total = \$1,089k, kv total = \$809k, kv past 5 yrs = \$630k)

1. University of Wyoming Quaternary Studies - Roy Shlemon grant; 2020-2021; *Digging Deeper: The convergence of soil microbial ecology and mineralogy across scales of time and space*; Co-PIs: K. Vaughan and R. Aleman; \$12,000.

2. City of Laramie, Monolith Ranch; 2020-2021; Assessment of salinity issues at Pioneer Pasture on Monolith Ranch, WY; Co-PIs: K. Vaughan & M. Kent; \$13,710.
3. Wyoming Research Scholars; 2020-2021; Quantification of iron monosulfide formation in wetland soils; co-PIs: M. Andersen, C. Duball, and K. Vaughan; \$11,350.
4. University of Wyoming Faculty Grant-In-Aid; 2020-2021; Digging Deeper: soil mineralogy across scales of time and space; PI: K. Vaughan; \$7,500.
5. University of Wyoming Biodiversity Institute - Novel Outreach and Education Grants; 2020-2021; Will Run for Soil; PI: Karen Vaughan; Co-PIs: Yamina Pressler, Lydia Jennings, Morgan Heim, and Jane Zelikova; \$25,000.
6. Wyoming Agricultural Experiment Station (AES) Competitive Grants Program; 2020; Hydromorphology and carbon dynamics in high elevation wetland systems; PI: K. Vaughan; \$10,000.
7. Open Educational Resources, UW Libraries Alt-Textbook Grant Proposal; 2020; #learnbydigging - creation & organization of materials in support of an Environmental Pedology course; PI: K. Vaughan; \$2,000.
8. USDA-NRCS Soil and Plant Science Division; 2019-2021; Quantification of redoximorphic feature expression; PI: K. Vaughan; \$100,000.
9. USDA-NRCS Soil and Plant Science Division; 2019-2021; Development of immersive virtual reality experiences in the ecosystem sciences; PI: K. Vaughan; \$50,000.
10. Wyoming NASA Space Grant Consortium, Faculty Education Enhancement Grant; 2019-2020; Development and implementation of immersive virtual reality experiences in the ecosystem sciences; PI: K. Vaughan; \$5,000.
11. Open Educational Resources, UW Libraries Alt-Textbook Grant Proposal; 2019; Enhancement of student learning through the generation of interactive, 3D models for soil science; PIs: K. Vaughan & R. Aleman; \$3,000.
12. Hatch- McIntire Stennis; 2019-2023; Carbon Dynamics and Hydromorphology in Depressional Wetland Systems; Co-PIs: P. Drohan, J. Galbraith, M. Rabenhorst, L. Spokas, M. Stolt, J. Thompson, B. Vasilas, and K. Vaughan.
13. Open Educational Resources, UW Libraries Alt-Textbook Grant Proposal; 2019; Creation of an Alternative, Open Soil Ecosystem Laboratory Manual; PI: K. Vaughan; \$3,000.
14. B.L. Allen endowment, Texas Tech. University; 2019-2021; #willrunforsoil film development; PIs: K. Vaughan and Y. Pressler; \$25,000.
15. United States Department of Agriculture, Natural Resource Conservation Service; 2019-2020; Soil Geomorphology Institute; PI: K. Vaughan; \$35,000.
16. University of Wyoming Under-Represented Domestic Minority Graduate Students Recruitment and Mentoring; 2018-2020; Request for Soil Science M.S. assistantship; PI: K. Vaughan; \$50,862.
17. United States Department of Agriculture, NIFA; University of Wyoming Agricultural Experiment Station (McIntire-Stennis). 2018. Center of Excellence: Sustainable extensive rangeland agricultural systems in high altitude headwater areas. Co-PIs: G.B. Paige, L.P. Ritten, J. Beck, W. Stewart, J.D. Scasta, B. Meador, M. Murphy, S. Lake, S. Paisley, K. Vaughan, R. Coupal, T. Collier, A. Latchinsky; \$50,000.

18. Biodiversity in the Arts Grant Program; 2018-2019; SOIL: the rainbow beneath; Co-PIs: K. Vaughan and D. Baumbach; \$5,000.
19. University of Wyoming Under-Represented Domestic Minority Graduate Students Recruitment and Mentoring; 2017-2020; Request for Soil Science Ph.D. assistantship; PI: K. Vaughan; \$50,862.
20. Wyoming NASA Space Grant Consortium, Faculty Research Initiation Grant; 2017-2018; Development of spatially explicit riparian classification maps using structure from motion photogrammetry; PI: K. Vaughan; \$18,483.
21. Wyoming NASA Space Grant Consortium, Faculty Education Enhancement Grant; 2017-2018; Advancing STEM education through the development of an integrative science communication course; PI: K. Vaughan; \$10,000.
22. University of Wyoming Faculty Grant-In-Aid; 2017-2018; Climatic controls on wetland biogeochemistry, hydrology, and function; PI: K. Vaughan; \$7,465.
23. University of Wyoming Quaternary Studies - Roy Shlemon grant; 2017-2018; Aeolian influence on soil evolution in high-alpine permafrost-affected ecosystems; Co-PIs: K. Vaughan, Z. Ash-Kropf, and L. van Diepen; \$10,000.
24. Bureau of Land Management National Landscape Conservation System Research Support Program; 2016-2017; Developing an Inventory and Monitoring Framework of Herbaceous Riparian Wetlands in the National Trails Management Corridor of the Upper Sweetwater River Basin, Wyoming; PI: J. Norton; \$25,000 (KV allocation ~\$9,500).
25. College of Agriculture and Natural Resources Student Technology Experience; 2017; Development and use of a Google Cardboard learning environment; Co-PIs: K. Vaughan and M. Murphy; \$10,000 (KV allocation \$5,000).
26. Wyoming Department of Environmental Quality, Abandoned Mine Lands; 2016-2018; Geomorphic reclamation and landscape heterogeneity: An efficacy assessment of vegetation heterogeneity, geomorphic stability, wildlife habitat, and economics; PI: P. Stahl; \$207,115 (KV allocation ~\$70,000).
27. UW College of Agriculture and Natural Resources Global Perspectives Grant Program; 2016-2017; International collaboration with World Agroforestry Centre (ICRAF) scientists: Environmental and human-induced drivers of soil organic carbon in savanna ecosystems; PI: K. Vaughan; \$4,000.
28. Wyoming National Science Foundation EPSCoR Outside-the-Box Grants; 2016-2017; Spatial distribution of alpine permafrost and its influence on mountain hydrology and climate change in the Snowy Range Mountains, Wyoming; Co-PIs: K. Vaughan & L. van Diepen; \$ 49,885 (KV allocation ~\$25,000).
29. College of Agriculture and Natural Resources Education Enhancement; 2016; Introduction to Soil Science laboratory enhancement request; PI: K. Vaughan; \$12,000.
30. University of Wyoming Under-Represented Domestic Minority Graduate Students Recruitment and Mentoring; 2017-2019; Request for Soil Science Ph.D. assistantship; PI: K. Vaughan; \$50,862.
31. Ellbogen Center for Teaching and Learning Professional Development Mini-Grants, University of Wyoming; 2015; Augmented Reality Sandbox construction; PI: K. Vaughan; \$1,500.
32. Research, Scholarly, and Creative Activities Grant Program, California Polytechnic State University; 2014; Variability of Soil Redoximorphic Feature Expression in Seasonal Wetlands; PI: K. Vaughan; \$13,440.

33. Agricultural Research Institute, California State University; 2014-2016; Development and documentation of a standard for visual sulfur reduction to identify seasonally inundated wetlands; PI: K. Vaughan; \$40,000.
34. United State Department of Agriculture - Natural Resources Conservation Service in coordination with Oregon State University; 2013-2015; Quantification of outcomes generated using multi-scale geomorphic classification systems in predictive and update modes of digital soil mapping; Co PIs: J. Noller & K. Vaughan \$94,074 (KV allocation \$49,208).
35. Agricultural Research Institute, California State University; 2012-2013; Soil Science New Investigator Funding; PI: K. Vaughan; \$5,000.
36. Oreggia Foundation, California State University; 2011-2015; Soil Science Research Funds; PI: L. Moody; \$40,000 (KV allocation \$40,000).
37. University of Idaho Student Grant Program; 2007-2008; Organic soil formation on Holocene-aged basaltic lava flows at Craters of the Moon National Monument and Preserve; PI: K. Vaughan; \$1,500.
38. Sustainable Idaho Initiative; 2007; Soil Stewards, student-run organic farm: Advancing sustainable food systems and experiential education opportunities on the University of Idaho campus; Co PIs: J. Johnson-Maynard & K. Vaughan; \$7,500.
39. United State Department of Agriculture - Natural Resources Conservation Service in coordination with the National Park Service; 2005-2007; Andisol pedogenesis at Craters of the Moon National Monument and Preserve; Co PIs: P. McDaniel & K. Castenson (Vaughan); \$22,000.

ADDITIONAL FUNDING AWARDED (\$44.5k)

University of Wyoming – Y Cross Ranch Tuition and Fee award; 2020-21; July 2020; \$9,000.

University of Wyoming, School of Energy Resources; Funds awarded to the University of Wyoming Soil Judging Team to participate in the Regional and National Collegiate Soil Judging Competitions; July 2020; \$7,500.

University of Wyoming, School of Energy Resources; Funds awarded to the University of Wyoming Soil Judging Team to participate in the Regional (Utah State University) and National Collegiate (Ohio State University) Soil Judging Competitions; October 2019; \$7,500.

University of Wyoming, School of Energy Resources; Funds awarded to the University of Wyoming Soil Judging Team to participate in the National Collegiate Soil Judging Competition hosted by California Polytechnic State University in San Luis Obispo, CA; April 2019; \$7,500.

University of Wyoming, School of Energy Resources; Funds awarded to the University of Wyoming Soil Judging Team to participate in the National Collegiate Soil Judging Competition hosted by University of Tennessee in Martin, TN; March 2018; \$6,500.

University of Wyoming, School of Energy Resources; Funds awarded to the University of Wyoming Soil Judging Team to participate in the National Collegiate Soil Judging Competition hosted by Northern Illinois University in Dekalb, IL; April 2017; \$6,500.

GRANTS IN PROGRESS OR REVIEW

USAID; 2021-2023; Enhanced agricultural productivity and extension services through the collection, analysis, and dissemination of soil and land health information in Kyrgyzstan; Co-Pis: B. Emileva, L. Winowiecki, K. Vaughan; \$160,000. Submitted February 2020.

World Bank; 2020-2021; Soil Survey of Dominica; Co-PIs: K. Harrison, J. Wah, K. Vaughan; ~\$900,000. In progress. Paused due to COVID.

GRANTS SUBMITTED (NOT AWARDED)

1. Wyoming National Science Foundation EPSCoR Microbial Ecology Collaborative Seed Grants; 2020-2022; Digging Deeper: The convergence of soil microbial ecology and mineralogy across scales of time and space; Co-PIs: K. Vaughan & L. van Diepen; \$ 38,950 (KV allocation \$35,980). Submitted January 2020.
2. National Park Service, The Conway Science Fellowship. 2019-2021. Soil biodiversity and landscape processes in fragmented, human-influenced ecosystems; Co-PIs: K. Vaughan and Y. Pressler; \$183,800.
3. University of Wyoming Science Initiative; 2019-2021; Impacts of human-ecological interactions on thresholds across gradients in fragmented landscapes; PI: K. Vaughan; Co-PIs: M. Murphy, J. Norton, K. Wilcox; \$90,000. Submitted February 2019.
4. USDA NIFA Higher Education Challenge Grants; 2019-2021; Developing a Next-Generation Open and Accessible E-Textbook to Advance Soil Science Education; PI: C. Moorberg; Co-PIs: K. Vaughan, T. Hartshorn, D.G. McGahan, Y. Sanchez de Leon, S. Hai-Jew; \$750,000.
5. Letter of Intent for the USDA-NIFA Agricultural and Food Research Initiative Competitive Grants Program - Sustainable Agricultural Systems, FY 2018 RFA. Impacts of selecting for feed efficient females in range-based domestic livestock operations on the meat supply chain across the US and subsequent impacts on natural resource quality in the Western US; Co-PIs: Ritten and Paige.
6. University of Wyoming Quaternary Studies - Roy Shlemon grant; 2018-2019; Biogeochemistry of FeS in arid-land wetland ecosystems: Towards improving wetland functional understanding; Co-PIs: K. Vaughan and C. Duball; \$12,000.
7. Bureau-wide National Conservation Lands Scientific Studies Support Program; 2017-2019; Current and Potential Soil Health and Productivity in the National Trails Management Corridor, Wyoming; Co-PIs: K. Vaughan, J. Norton, and S. Miller, \$25,000.
8. National Science Foundation Long-term Ecological Research Site Program; 2017-2023; LTER: Ecological interactions in a warming shrub steppe landscape; PI: R. Hall; \$5,400,000.
9. Agriculture and Food Research Initiative; 2017-2022; Spatial Variability of Soil Health as Affected by Landform-Management Interactions in Sagebrush-Steppe Rangelands; PI-Jay Norton; \$499,997.
10. W.M. Keck Foundation, Undergraduate Education Grant Program; 2017-2020; Wyoming Environmental Science and Technology Institute (WEST); Co-PIs: K. Vaughan and D. Wachob; \$350,000.
11. Wyoming NSF EPSCoR pre-proposal; 2017-2023; Collaborative Lab for Promoting Wyoming STEAM Initiatives (WySTEAIM CoLLab) Wyoming EPSCoR EOD (Broader Impacts); PI: B. Gellis; \$468,475.
12. Wyoming NSF EPSCoR Seed Grant Opportunity; 2016-2017; Influence of edaphic factors on hydromorphology of wetland soils; PI: K. Vaughan; \$49,866.
13. University of Wyoming Faculty Grant-In-Aid; 2016-2017; Influence of edaphic factors on redoximorphic feature formation in wetland soils; PI: K. Vaughan; \$7,500.
14. University of Wyoming Agricultural Experiment Station; 2015-2017; Grazing strategy and wetland ecosystem function along rangeland riparian corridors; PI: J. Norton; \$90,000.

ADVISEES GRANTSMANSHIP & AWARDS (STUDENT LED SUBMISSIONS)

Research Grants: (1) Society of Wetland Scientists graduate research grant; 2018-2019; Quantification of iron monosulfide expression in arid-land wetlands; PI: Chelsea Duball; \$1,000 awarded; (2) Berry Center Biodiversity Grant; 2017-2018; *Soil Microbial Community Diversity and Function in Recently Thawed High-Alpine Permafrost Soils*; PI: Zoe Ash-Kropf; \$8,000 awarded; (3) WyomingView Grant, Wyoming Geographic Information Science Center (WyGISC); November, 2017; PI: Amanda Pennino; \$500 awarded; (4) Open Educational Resources; 2020; Archiving the variability of soil profiles through photogrammetry; PI: Ruben Aleman; \$2,000 awarded; (5) Open Educational Resources; 2020; Adaptation of introductory soils open-access laboratory manual; PI: Anna Schwyter; \$2,000 awarded; (6) Laramie Audubon Society; 2020; FeS Biogeochemistry; PI: Chelsea Duball; \$500 awarded.

Fellowships and Scholarships: (1) Mary Mead Wyoming Graduate Scholarship for Women in Agriculture, University of Wyoming, July 2017, PI: Amanda Pennino; \$1200; (2) Soil Science Society of America (SSSA) Wilford Gardner Travel Fellowship; summer 2018, PI: Chelsea Duball, \$1,500 awarded; (3) Mary Mead Graduate Fellowship for Women in Agriculture 2019, Chelsea Duball, \$2,600; (4) Science Initiative: Learning Actively Mentoring Program, 2019, Anna Schwyter, \$2500; (5) Soil Science Institute Fellowship, 2019, Anna Schwyter, 2019; (6) Gerald Schuman Soil Science Scholarship 2019; Chelsea Duball; \$1,200; (7) Mead Graduate Fellowship for Women in Agriculture 2020; Chelsea Duball; \$3000; (8) Dr. Herbert G. Fisser Graduate Fellowship 2020; Chelsea Duball; \$1,000; (9) Community Foundation of Jackson Hole Fellowship for Women in Quaternary Studies 2020; Chelsea Duball; \$5,000.

Awards and Travel Grants: (1) Memorial Scholarship, Amer. Soc. for Mining and Reclamation (ASMR); June 2018; PI: Amanda Pennino; \$1500 awarded; (2) Best oral presentation, Amer. Soc. for Mining and Reclamation (ASMR); June 2018; PI: Amanda Pennino; \$250 awarded; (3) Graduate student travel grant, Amer. Soc. for Mining and Reclamation (ASMR); June 2018; PI: Amanda Pennino; \$250 awarded; (4) Gerald Schuman Soil Science Graduate Student Award, Soils Faculty at University of Wyoming; May 2018; PI: Amanda Pennino; \$1200 awarded; (5) Wyoming Women in Science and Engineering (WWISE) travel grant, Wyoming EPSCoR; spring 2017; PI: Amanda Pennino; \$1,000 awarded; (5) Graduate student travel grant, Amer. Soc. for Mining and Reclamation (ASMR); April 2017; PI: Amanda Pennino; \$250 awarded; (6) Second place poster presentation, Amer. Soc. for Mining and Reclamation (ASMR); April 2017; PI: Amanda Pennino; \$200 awarded (7) Student travel grant, Wyoming Soil and Water Conservation Society; October 2016; PI: Amanda Pennino; \$300 awarded; (8) SSSA Wetlands Division poster competition; November 2019; Anna Schwyter; \$200; (9) Society of Wetland Scientists Rocky Mountain Chapter travel grant; Chelsea Duball; \$200; (10) The Wetland Foundation graduate student conference travel grant; Chelsea Duball; \$1,400; (11) Best student presentation at the 2020 West Region Cooperative Soil Survey Conference; Chelsea Duball, \$650; (12) Second place student presentation at the 2020 Society of Wetland Scientists Student Section Virtual Conference; Chelsea Duball; \$75; (13) Ecological Society of America, Biogeosciences Section student registration grant 2020; Chelsea Duball; \$60.

ADVISING & MENTORING

University of Wyoming

- Faculty advisor to the UWYO Soil Science Club and Soil Judging Team (2016 - present)
- Graduate research mentoring:
 - Meghan Kent (M.S.) (August 2019 - present); thesis: TBD
 - Ruben Aleman (Ph.D.) (January 2019 - present); dissertation: Soil mineralogical and ecological relationships across space and time

- Anna Schwyter (M.S.) (August 2018 - present); thesis: Wetland biogeochemistry across an elevational gradient in the Snowy Range Mountains, Wyoming
- Chelsea Duball (Ph.D.) (August 2017 - present); dissertation: S biogeochemistry in wetlands of arid regions

Completed students:

- Michael Kasten (M.S.) (July 2016 – August 2018); thesis: Evaluation of soils and wetland plant community composition in the National Trails Management Corridor of the upper Sweetwater River Basin, Wyoming
- Zoe Ash-Kropf (M.S.) (July 2016 – May 2018 with Dr. Linda van Diepen); thesis: Spatial distribution of alpine permafrost and its influence on mountain hydrology and climate change in the Snowy Range Mountains, Wyoming
- Amanda Pennino (M.S.) (August 2016 – August 2018); thesis: Geomorphic reclamation and landscape heterogeneity: An efficacy assessment of vegetation heterogeneity, geomorphic stability, wildlife habitat, and economics
- Matthew King (M.S.) (August 2016 – May 2018); thesis: Hydromorphology of calcareous soils in western Wyoming
- Graduate student committees:
 - Tessa Ray-Cozzens (M.S.) Major Professor: Bryan Shuman (2020 – present)
 - Sarah Binti-Maarof Granke (M.S.) Major Professor: Cliff Riebe (2019-present)
 - Than Thi Ndoc Dam (Ph.D.) Major Professor: Mengqiang Zhu (2018-present)
 - Colleen Friday (M.S.) Major Professor: Derek Scasta (2017-2019)
 - Elizabeth Traver (Ph.D.) Major Professor: Linda van Diepen (2016-present)
 - Peng Yang (Ph.D.) Major Professor: Mengqiang Zhu (2016-2019)
 - Russell Callahan (Ph.D.) Major Professor: Cliff Riebe (2015-present)
 - Qian Wang (Ph.D.) Major Professor: Mengqiang Zhu (2017-2018)
 - Chueng Ho (Ph.D.) Major Professor: Mengqiang Zhu (2015-2018)
- Undergraduate research mentoring
 - Megan Andersen – Rate of FeS formation, Wyoming Research Scholar (2020)
 - Matthew Ratterman – FeS formation (2020, *altered due to COVID19*)
 - Caleb Gray – incubation pH to estimate S influence (2018)
 - Taylor Kepley – microbial community dynamics in calcareous hydromorphic soils (2018)
 - Zoe Sherman – microbial community dynamics (2018)
 - Emma Fox-Fogle – microbial community dynamics (2018)
 - Jenna Brown – spatial variability of soil biogeochemical properties (2018)
 - Taylor Bush – Pedology research assistant (2017) and development of introductory soil science laboratory activity using UHandy microscope (2018)
 - Taylor Cullum-Muyres – Problematic serpentinitic hydric soils (2017)
 - Casey Campbell – NRCS Pathways soil science intern (2016)
- Academic advisor to 5, 10, 7, 6, 5 undergraduate students (2016, 2017, 2018, 2019, 2020)
- Undergraduate laboratory and field research assistants: Joshua Fearing (2018-2019); Ethan Rowe, Taylor Bush, Taylor Kepley (2017); Angelina Lasko, Taylor Cullum-Muyres, Kaitlyn Hoffman (2016); Alex Foulk (2015).

Previous Institution

- Faculty advisor to the Cal Poly Earth, Soil, and Water Conservation Club (2012 – 2015), Geology Club (2013 – 2015), and Soil Judging Team/Club (2012 – 2015).

- Faculty advisor to approximately 80 undergraduate students majoring in soil science or earth science at Cal Poly annually.

Undergraduate research mentoring (2012-2014): *continued to graduate school

- Adrian Gallo* - California Polytechnic State University (2013); Seasonal soil moisture and temperature variation of timber stands with varying canopy structure in SW Oregon.
- Scott Pensky* - California Polytechnic State University (2013); Seasonal soil moisture and temperature variation of timber stands with varying canopy structure in SW Oregon.
- Yamina Pressler* - California Polytechnic State University (2013); Nitrogen cycling in well-developed cyanobacterial biological soil crusts under varied moisture conditions
- Andrew Ritenour - California Polytechnic State University (2013); Studying the efficacy of vermicompost for greenhouse tomato seedling growth
- Maria Hassett - California Polytechnic State University (2013); The effects of recycled water irrigation on soil salinity and plant health
- Laurie Fraser* - California Polytechnic State University (2014); Using soil maps to prevent sudden oak death: Map analysis of four coastal California counties to determine influence of soil and landscape characteristics of *Phytophthora ramorum* chlamyospore survival.
- Max Ross* - California Polytechnic State University (2014); Sampling of soil profiles on Cal Poly campus
- Josh Fridlund - California Polytechnic State University (2014); The effect of increasing rates of biochar on corn growth in Salinas clay loam
- Jason DeMoss - California Polytechnic State University (2014); Utilizing Indicator of Reduction in Soils Tubes to Affirm a Serpentinic Hydric Soil on the California Central Coast
- Nico Navarro* - California Polytechnic State University (2015); Development and Documentation of a Standard for Visual Sulfur Reduction to Identify Seasonally Inundated Wetlands
- Florence Miller* - California Polytechnic State University (2015); Development and Documentation of a Standard for Visual Sulfur Reduction to Identify Seasonally Inundated Wetlands
- Kathryn Grossmith - California Polytechnic State University (2015); The Collection and Analysis of Soil Sites on the Cal Poly Campus
- Graduate research mentoring:
 - Mark Gormley (M.S.) *The influence of hydrogeomorphology, soil redox conditions, and salinity on the spatial zoning of vegetation at Scott's Creek Marsh, Swanton Pacific Ranch, California.* Major Professor: Dr. Karen Vaughan (2011-2013)
 - Ariel Namm (M.S.) *Serpentinic problematic hydric soils in a Mediterranean Climate along the Central Coast of California.* Major Professor: Dr. Karen Vaughan (2012-2014)
- Graduate student committees:
 - Mary Crable (M.S.) *Evaluating five years of soil hydrologic response following the 2009 Lockheed Fire in the coastal Santa Cruz Mountains, California.* Major Professor: Dr. Brian Dietterick (2011-2014)
- Instructed students as assistant or head coach in regional and national soil judging competitions Storrs, CT (2001), State College, PA (2002), Minneapolis, MN (2002), Narragansett, RI (2003), College

Station, TX (2003), San Luis Obispo, CA (2006), Bend, OR (2006), Logan, UT (2007), Ontario, OR (2007), and Narragansett, RI (2008).

PROFESSIONAL SERVICE ACTIVITIES

- Chair of the West Regional Cooperative Soil Survey Hydric Soils Committee (2019 - present)
- Vice-chair of the Research Needs Committee of the National Cooperative Soil Survey (2019 - present)
- Member of Gamma Sigma Delta - the Honor Society of Agriculture (2019 - present)
- Earth Science Women's Network member (2019 - present)
- Science advisory board member Carbon180 soil carbon project (2019 - present)
- Search committee member for Rangeland Herbivore Ecology faculty position in ESM at the University of Wyoming (2018)
- Member of the University of Wyoming Academic Planning Committee (2017-present)
- Founding board member of the Wyoming Science Communication Initiative (2017 - present)
- College of Agriculture and Natural Resources Strategic Planning Committee (2017)
- Recognition and Representation Taskforce Committee Member, Soil Science Society of America (2018 - present)
- Soil Science Society of America, Pedology Division Chair (2017) and Past Chair (2018)
- USDA-NRCS Soil Science Division, Initial Mapping Focus Team member (2017 - present)
- Reviewer for Soil Science Society of America, Catena, Geoderma, Journal of Environmental Quality, Soil Use and Management, The Holocene, and Biogeochemistry.
- Advancing Pedology Colloquium Committee, Soil Science Society of America (2016-2018)
- William H. Patrick Memorial Lectureship Committee, Soil Science Society of America (2016-2018)
- USDA-NRCS National Technical Committee for Hydric Soils, elected academic representative (2013 - present)
- National Collegiate Soil Judging Contest Committee - region 6 representative, Soil Science Society of America (2013 - present)
- Soil Science Society of America member (2001 - present); Invited member of the Early Career Member Taskforce (2010-2011); Invited member of the SSSA Reorganization Taskforce (2011-2014); Invited member of the Early Career Member Advisory Committee to the SSSA Board of Directors (2010-2013).
- Western Society of Soil Science (2004-2012)
- Western Snow Conference Association (2010-2013)
- Society of Wetland Scientists (2004-present)
- Association of Women Soil Scientists (2006-present)

COMMUNITY AND CAMPUS OUTREACH

- Women in STEM Conference for Junior High and High School Students, University of Wyoming, Wyoming NASA Space Grant Consortium (May 2020 - cancelled due to COVID-19)
- Interviewed by Women in Ag Science <https://www.womeninagscience.org/post/meet-dr-karen-vaughan-soil-scientist-and-creative-science-communicator> (February 2020)
- Co-founder fortheloveofsoil.org website devoted to sharing open access soil science educational resources <https://fortheloveofsoil.org/educate> (2020)

- Development of a documentary-style film sharing the story of soil through the lens of the runners who study it. More at www.willrunforsoil.com Collaboration with Yamina Pressler and Lydia Jennings.
- @fortheloveofsoil Instagram account <https://www.instagram.com/fortheloveofsoil/> with ~3000 followers and ~200 posts in 2020.
- Soil: The rainbow beneath soil art exhibit in collaboration with Diana Baumbach (<http://dianabaumbach.com/>), Berry Biodiversity Institute, August - October 2019; UW Geological Museum, November 2019.
- Guest lecture for an agroecology course (R. Jabbour) on the integration of art and science (September 2019).
- Presented and served on a panel at the UWYO Libraries 2nd Annual Open Education Symposium (October 2019)
- Panelist at the 2019 Open Education Symposium, *Alt-Textbook Grant Recipients Lightning Talks* (October 2019)
- Presented and shared VR technology at the Tech Jumpstart: a free open house showcasing classroom technology available on campus for students and educators. COE Student Innovation Center (Dec. 2018).
- Formalized the Wyoming Science Communication Initiative (WYSCI) <http://www.uwyo.edu/wysci/about/meet-wysci.html> (2018)
- Together with WYSCI, hosted Sharing Science: A panel on professional implications of engaging with policy makers (October 2018).
- Guest lecture for an ART course - Color theory (D. Baumbach) on the Importance of color in soil science (October 2018).
- Native American Summer Institute academic workshop host: *Exploring the world beneath your feet: the soil ecosystem*. University of Wyoming. Developed and delivered soil science and hydrology materials and activities to high school students participating in the Institute (June 2018).
- Staffed and displayed the UWYO Pedology Augmented Reality Sandbox at the Wyoming EPSCoR Own It! Pop-up Discovery Center Event (2018).
- Invited speaker at the University of Wyoming Haub School Career Series (2018).
- Collaborative project in progress with the Shell 3D Visualization Center on the development of an interactive soil profile interface with Emma Jane Alexander, Kyle Summerfield, and Emily Bean (2017 - present).
- Guest lecture in BOT 5780 - Biogeochemistry (D. Williams), February 28, 2017.
- Development of a Science Communication Initiative (WYSCI) at UW (July 2017 - present).
- Google Cardboard Expeditions displayed at the UW Geological Museum for the Wyoming Rocks Event. 250 people engaged (2017, 2018).
- Augmented Reality Sandbox travelled to Jackson Wild Festival with Laura Vietti. 600 people engaged. (Sept/Oct 2017; 2018).
- Hosted Dr. David Weindorf at the screening of "Between Earth and Sky" at the Berry Center followed by a reception at the UW Geological Museum. (September 2017).
- Haub School of Environment and Natural Resources, Natural Resource Recreation and Tourism faculty curriculum committee member (2017).

- Soil science for preschoolers - invited and hosted preschoolers from the Early Care and Education Center to the Introductory Soil Science lab in STEM 235 (July 2017).
- Staffed and displayed the UWYO Pedology Augmented Reality Sandbox at the Wyoming EPSCoR Own It! Pop-up Discovery Center Event. (April 2017).
- Interview entitled *Soil Science chose me* by 500 Women Scientists <https://500womenscientists.org/updates/2017/3/19/soil-science-chose-me> (March 2017).
- In collaboration with the Haub School, School of Energy Resources, and the Ecosystem Science and Management Department (Scott Miller), coordinated and planned the Showcase Saturday event for potential students interested in Outdoor and Environmental Degrees at UWYO (January 2017).
- Invited to display the UWYO Pedology Augmented Reality Sandbox at the Tri-Societies Booth at ASA-CSSA-SSSA, Phoenix, AZ (2016).
- Participated in and displayed the Augmented Reality Sandbox to the Women in STEM Conference for Junior High and High School Students, University of Wyoming, Wyoming NASA Space Grant Consortium (2016).
- Delivered *Incorporating Experiential Learning in Soil Science Education: Use of an Augmented Reality Sandbox* presentation at the ECTL Active Learning Symposium (2016).
- WORMS and SOIL - explored the wonderful belowground world with toddlers at the University of Wyoming Early Childhood Education Center (2016).
- Organized and hosted the California State FFA Land Judging Competition at Cal Poly (2014, 2015).
- Environmental Earth Science for fourth graders from San Luis Obispo County Schools (2013).
- Agriculture Development for Afghanistan Pre-Deployment (ADAPT) Training instructor (2013).
- WORMS - explored the wonderful world of worms with toddlers at the ASI Children's Center at Cal Poly (2012, 2013, 2014, 2015).
- NRES Enrollment Taskforce member (2011) - Responsible for identifying ways to increase enrollment in all NRES majors.
- NRES Mission and Vision Statement Taskforce member (2011) - Responsible for developing a recommendation for the new mission and vision statement for the NRES department.
- Green Career Day at Thanksgiving Point (2010) Lehi, UT - Discussed environmental career opportunities with Utah high school students.
- Soil Science education for third graders at Rose Wagner Elementary (2010) Salt Lake City, UT - Taught third grade class about the importance of the environment and soil health.
- Encouraged Earth team volunteers to assist in soil descriptions and sampling at SNOTEL and SCAN sites (supervised 4 volunteers in 2009-2010).
- Soil Science education for second graders at West Park Elementary (2007) Moscow, ID - Taught second grade classes about the importance of the environment and soil health.
- Soil Stewards Farm Field Day (2007) Moscow, ID - Presented information about the soil fertility and morphology on the University of Idaho student-run organic farm.
- El Segundo Taller de Suelos (2007) Talamanca, Costa Rica - Assisted a colleague in preparing and hosting a workshop for a Cabécar indigenous community about the importance of soil fertility on their farms.

- Community supported agriculture coordinator (2007) Moscow, ID - Liaison between community shareholders and student members of the Soil Stewards.
- Mountain biking through Thailand (2007) Moscow, ID - Informal presentation to the Moscow Grange Chapter.
- Backyard Harvest (2006-2008) Moscow, ID - Delivered and organized the weekly donation of produce grown by the Soil Stewards to Backyard Harvest who then distributed produce to regional food banks.

TRAININGS AND WORKSHOPS

- Reclamation Summit hosted by Duraroot Environmental Consulting (May 2020) cancelled due to COVID-19.
- Organized and hosted the Soil Science Graduate Student Panel via Zoom and shared recording here: <https://t.co/7FxykujFYD?amp=1> (April 2020)
- Participated in the Sharing Science Workshop: Your science narrative and social media by Dr. Virginia Schutte hosted by the Wyoming Science Communication Initiative (October 2019)
- Hosted the USDA-NRCS Soil Geomorphology Institute at the University of Wyoming (September 2019)
- Participated in the WySci Lab-based Research Photography Workshop (November 12, 2018)
- Completed the Workforce Diversity Training (2018)
- Participated in the WySci Sharing your science: A panel on the professional implications of engaging with policy makers (October 30, 2018)
- Participated in the workshop, Demystifying the Media, University of Wyoming (2018)
- Attended the Sci-Art Exploratorium hosted by the UW Art Department, University of Wyoming (2017)
- Storytelling Science through Film workshop participant, Wyoming EPSCoR, resulted in the production of a short film entitled: Science for All (<https://vimeo.com/205465224>) (2017)
- UW Laboratory Safety Training (2017)
- Grant Writers' Workshop - University of Wyoming (2016)
- Field tour of problematic calcareous hydric soils of western Wyoming in conjunction with the USDA-NRCS and BLM range and soil scientists - Pinedale, WY (2016)
- Tips and Tricks for Actively Engaged Learning - University of Wyoming, Ellbogen Center for Teaching and Learning (2015)
- Employment Equity Facilitator Training - California Polytechnic State University (2014)
- USDA-NRCS Emerging Leadership Development Program - Potomac, MD (2011)
- CPR and First Aid - America Red Cross (2011)
- NASCA National Conservation Partnership Leadership Training - Louisville, KY (2010)
- All-Terrain Vehicle Training - ATV Safety Institute (2010)
- Aviation Safety - Interagency Aviation Training (2010)
- Introductory Helicopter Flight Training, Upper Limit Aviation, Utah (2009)
- Tower Climbing Safety and Rescue - Boise, ID (2009)

- Snow Safety and Survival School – Tahoe City, CA (2009)
- 7th Biennial Conference on University Education in Natural Resources – Corvallis, OR (2008)
- Radiation Safety Training – University of Maryland (2002) and University of Idaho (2007)
- Grant Writing Workshop – University of Idaho (2007)
- Ground-penetrating radar and electromagnetic induction training – James Doolittle, NRCS (2006)
- Cultural Resources Training – Bureau of Land Management, Shoshone, ID (2005)
- Teaching Assistant Training – University of Idaho (2004)
- Grantsmanship Workshop – University of Maryland (2004)
- Wildland Fire Safety Training and Red-Card certification – Big Cypress National Preserve, FL (2001)

PRESENTATIONS & PUBLISHED ABSTRACTS

1. Duball, C. & **K. Vaughan**. 2020. The Formation and Transformation of Iron Monosulfides Under Varying Biogeochemical Conditions. American Geophysical Union. Virtual. Poster presentation.
2. Duball, C. & **K. Vaughan**. 2020. Investigating the Fate and Rate of Iron Monosulfide Formation Under Anaerobic Soil Conditions. Soil Science Society of America. (virtual) Phoenix, AZ. Oral presentation.
3. *Andersen, M., C. Duball, & K. Vaughan*. 2020. Rate of Iron Monosulfide Formation on IRIS Films. Soil Science Society of America. (virtual) Phoenix, AZ. Poster presentation.
4. Duball, C. & **K. Vaughan**. 2020. FeS Concentrations Indicate the Presence of Hydric Soils: A Case Study on Riparian Soils in Western Nebraska. Soil Science Society of America. (virtual) Phoenix, AZ. Poster presentation.
5. Aleman, R. & **K. Vaughan**. 2020. Using photogrammetry as an archival and data collection tool in pedology. Soil Science Society of America. (virtual) Phoenix, AZ. Poster presentation.
6. Duball, C.E. and K.L. Vaughan. ~~2020~~. FeS concentrations indicate the presence of hydric soils: A case study on riparian soils In Western Nebraska. Society of Wetland Scientists. Quebec, Canada. Poster presentation. Cancelled due to COVID-19.
7. Duball, C.E., **K.L. Vaughan**, J.F. Berkowitz, M.C. Rabenhorst, and C.M. VanZomeren. ~~2020~~. Iron monosulfide identification: Field techniques to provide evidence of reducing conditions in soils. Society of Wetland Scientists. Quebec, Canada. Poster presentation. Cancelled due to COVID-19.
8. Schwyster, A. & **K. Vaughan**. 2020. Climatic Influence on Wetland Biogeochemistry and Function Using an Elevational Sequence in the Rocky Mountains, WY. Soil Science Society of America. (virtual) Phoenix, AZ. Poster presentation.
9. Duball, C.E. and **K.L. Vaughan**. 2020. Investigating the formation and transformation of iron monosulfides in soils. Ecological Society of America Virtual Conference. Poster Presentation.
10. Duball, C.E. and **K.L. Vaughan**. 2020. Iron monosulfide concentrations indicate the presence of hydric soils: A case study on riparian soils In Western Nebraska. Society of Wetland Scientists Student Section Virtual Conference. Rapid oral presentation.
11. Duball, C.E., **K.L. Vaughan**, A. Miller, R. Riddle, P. King, A. Steinert, and K. Mingus. 2020. Investigating FeS formation in semi-arid wetlands. Western Regional Cooperative Soil Survey Virtual Conference. Rapid oral presentation.

12. **Vaughan, K., C. Duball**, M. Rabenhorst, and J. Berkowitz. ~~2020~~. FeS transformations as evidence of anaerobic conditions. International Symposium on Biogeochemistry of Wetlands. New Orleans, LA. Oral presentation. *Invited*. Rescheduled to 2021 due to COVID-19.
13. **Vaughan, K., C. Duball**, M. Rabenhorst, and J. Berkowitz. 2019. Iron monosulfide concentrations as evidence of anaerobic conditions. Soil Science Society of America. San Antonio, TX. Oral presentation.
14. Duball, C. and **K. Vaughan**. 2019. Quantification of iron monosulfides to address problematic soils and improve delineation of wetlands in the semi-arid western U.S. Soil Science Society of America. San Antonio, TX. Poster presentation.
15. Aleman, R. and **K. Vaughan**. 2019. Using photogrammetry as an archival and data collection tool in pedology. Soil Science Society of America. San Antonio, TX. Poster presentation.
16. Schwyster, A. and **K. Vaughan**. 2019. Climatic influence on wetland biogeochemistry and function using an elevational sequence in the Rocky Mountains, WY. Soil Science Society of America. San Antonio, TX. Poster presentation.
17. Pennino, A., K. Vaughan, H. Van Miegrot, C. Duball, Y. Pressler, C. Olson, A.A. Berhe, E. Brevik. 2019. Women soil scientists in the US: Growing participation, emerging gaps, and the opportunities for advancement. Soil Science Society of America. San Antonio, TX. Poster presentation.
18. **Vaughan, K.** 2019. Up to our ankles in muck: Exploring wetland biogeochemistry or just playing in the mud? Purdue University, Guest Lecturer. October 2019. *Invited*.
19. Ayayee, P., A. Schwyster, **K. Vaughan**, and L. van Diepen. 2019. Temporal and spatial patterns of microbial structure and function in montane wetlands. Ecological Society of America. Louisville, KY. Poster presentation.
20. Pennino, A., **K. Vaughan**, and K. Fleisher. 2019. Dynamic soil properties and vegetative establishment following geomorphic reclamation in Wyoming. Soil Science Society of America. San Diego, CA. Oral presentation
21. **Vaughan, K.**, P. Drohan, J. Galbraith, M. Rabenhorst, L. Spokas, M. Stolt, J. Thompson, and B. Vasilas. 2019. Redoximorphic feature expression in seasonally inundated soils reveals belowground climatic influence on development. Soil Science Society of America. San Diego, CA. Oral and poster presentation.
22. Duball, C. and **K. Vaughan**. 2019. Iron Monosulfide Is the New Black: Quantifying FeS in Freshwater, Saline Wetlands. Soil Science Society of America. San Diego, CA. Oral and poster presentation.
23. Kholodov, A., S. Natali, M. Loranty, **K.L. Vaughan**, D.C. Weindorf, B. Sharenbroch, M. McKenzie, and B. Bevacqua. 2019. Influence of ground thermal and moisture regime on soil processes within the discontinuous permafrost zone of interior Alaska. Soil Science Society of America. San Diego, CA. Oral presentation.
24. Acree, A., T. Blackman, D. Brumm, C. Duball, H. Dolliver, J. Fiola, A. Kholodov, J. Kraklow, R. Lybrand, V. Monsaint-Queeney, D. Nicolsky, L. Paulette, A. Pennino, J. Peralta, E. Rooney, B. Scharenbroch, D. Schulze, **K. Vaughan**, and D. Weindorf. 2019. Experiential learning in the Arctic. Soil Science Society of America. San Diego, CA. Oral and poster presentation.
25. Rabenhorst M.C., P. J. Drohan, J.M. Galbraith, L. Spokas, M. Stolt, J.A. Thompson, B.L. Vasilas, and **K.L. Vaughan**. 2019. Biogeochemistry of vernal pools assessed using IRIS film technology. Soil Science Society of America. San Diego, CA. Poster presentation.

26. Brevik, E. and **K. Vaughan**. 2019. Academic degrees earned by faculty teaching in American soil science programs; evaluation by sub-discipline. Soil Science Society of America. San Diego, CA. Poster presentation.
27. **Vaughan, K.** 2018. Soil evolution and mass flux of basaltic volcanics and cool, arid climate. University of Wyoming Geology Distinguished Lecture Series. *Invited*.
28. **Vaughan, K.** 2018. Wetland Biogeochemistry: where disciplines collide. Oregon State University, Benno P. Warkentin Guest Lecturer. May 2018. *Invited*.
29. **Vaughan, K.** 2018. If a tree falls in the forest and no one hears it, does it matter? The importance of communicating science. Oregon State University, Benno P. Warkentin Guest Lecturer. May 2018. *Invited*.
30. Duball, C., **K. Vaughan**, J. Berkowitz, A. Miller, and M. Vepraskas. 2018. Quantification of iron monosulfide expression in arid-land wetlands. Society of Wetland Scientists. Denver, CO. Poster presentation.
31. King, M. and **K. Vaughan**. 2018. Problematic calcareous soils in western Wyoming. Society of Wetland Scientists. Denver, CO. Poster presentation.
32. Duball C., **K. Vaughan**, A. Pennino, Y. Pressler, E. Brevik, C. Youngquist, S. Ying, P. Thompson, and L. Lynn. Reflections on the gender distribution and parity of U.S. soil scientists. IUSS World Congress of Soil Science. 2018. Rio, Brazil. Poster presentation.
33. **Vaughan K.** 2018. University of Wyoming Pedology Lab update. National Technical Committee for Hydric Soils Annual Meeting. Salt Lake City, UT. *Invited*.
34. **Vaughan K.** 2018. Graduate student → government soil scientist → faculty at a teaching university → faculty at a research university. Haub School Career Series. *Invited*.
35. Pennino A., **K. Vaughan**. 2018. A pedologic view of geomorphic reclamation in Wyoming. American Society of Mining and Reclamation. St. Louis, MO. Oral presentation.
36. Pennino A., K. Fleisher, K. Hufford, and **K. Vaughan**. 2018. Geomorphic Reclamation: A pioneer method on the frontier of the Wild West. American Society of Mining and Reclamation. St. Louis, MO. Poster presentation.
37. Brevik, E. and **K. Vaughan**. 2018. Academic Degrees Earned by Faculty Teaching in Soil Science Programs in the USA. European Geosciences Union General Assembly. Vienna, Austria. Poster presentation.
38. **Vaughan. K.L.** 2017. UWYO Pedology Lab update. Wyoming Cooperative Soil Survey Meeting. Cheyenne, WY. Oral presentation. *Invited*.
39. Berhe A.A., E. C. Brevik, T. Christopherson, C. Duball, D. S. Page-Dumroese, S. Kienast-Brown, D. L. Lindbo, L. A. Lynn, U. Norton, C. G. Olson, Y. Pressler, P. Thomas, **K. L. Vaughan**, S. Weems, S. C. Ying, C. Price Youngquist, A. Pennino, Z. Ash-Kropf, M. Tsiafouli, L. Winowiecki, and J. Chirtas. 2017. State of gender parity in soil science. Soil Science Society of America Annual Meeting. Tampa, FL. Oral and poster presentation.
40. Pennino, A., **K.L. Vaughan**, and J. Norton. 2017. Soil development in response to geomorphic reclamation in the semi-arid west. Soil Science Society of America. Tampa, FL. Oral presentation.
41. Ash-Kropf, Z., L. Van Diepen, and **K.L. Vaughan**. 2017 Microbial dynamics in recently thawed high-alpine permafrost-affected soils. Soil Science Society of America. Tampa, FL. Poster presentation.

42. Kasten M., J.N. Norton, and **K.L. Vaughan**. 2017. Impact of grazing management on soil carbon storage and spatial area of wetlands along the national historic trails corridor, Wyoming. Soil Science Society of America. Tampa, FL. Poster presentation.
43. King, M. and **K. Vaughan**. 2017. Problematic calcareous soils in western Wyoming. Soil Science Society of America. Tampa, FL. Poster presentation.
44. **Vaughan K.** 2017. University of Wyoming update. National Technical Committee for Hydric Soils annual meeting. Duluth, MN. Oral presentation.
45. **Vaughan K.**, Z. Ash-Kropf, and L.T.A. van Diepen. 2017. Pedogenesis, permafrost, and C dynamics of alpine ecosystems in the Snowy Range Mountains, Wyoming. Ecological Society of America. Portland, OR. Poster presentation.
46. Regan M., J. Bruggink, C. Cole, E. Geisler, D. Kingsbury, P. Martyn, J. Rose, **K. Vaughan**, T. Rodgers, R. Almaraz. 2017. Initial Mapping Focus Team. National Cooperative Soil Survey Conference. Boise, ID. Poster presentation.
47. **Vaughan K.** 2017. Alpine permafrost in the Snowy Range...Are we too late? University of Wyoming Research Office Lightning Talks. Oral presentation.
48. Pennino, A., Fleisher, **K., Vaughan**, K., Hufford, K., Stahl, P. and Norton, J. 2017. Geomorphic reclamation and landscape heterogeneity: A preliminary look at landscape heterogeneity and vegetation establishment. American Society of Mining and Reclamation, Morgantown, WV. Poster presentation.
49. Brevik, E.C., **K. Vaughan**, S.J. Parikh, H. Dolliver, D. Lindbo, J.J. Steffan, D. Weindorf, P. McDaniel, M. Mbila, and S. Edinger-Marshall. 2017. Which Academic Majors Are Enrolling Students in American Soil Science Classes? Soil Science Society of America. Tampa, FL. Poster presentation.
50. Pennino, A., **Vaughan, K.**, Hufford, K., Stahl, P. and Norton, J. 2017. Geomorphic reclamation and landscape heterogeneity: A preliminary look at landscape heterogeneity and vegetation establishment. Poster presentation at the annual Geoscience Communication Workshop, Castiglione del Lago, Umbria, Italy.
51. **Vaughan, K.** 2017. Pedogenesis, permafrost, and C dynamics in the Snowy Range Mountains, Wyoming. Colorado State University Soil and Plant Science Seminar. Fort Collins, CO. Oral presentation. *Invited*.
52. Pennino, A., **K. Vaughan**, and J. Norton. 2017. Geomorphic reclamation and landscape heterogeneity: A preliminary look at geomorphic stability and vegetation establishment. High-Altitude Revegetation and Central Rockies Society for Ecological Restoration(HAR-CeRSEr) Conference, Fort Collins, CO. Poster presentation.
53. Kasten, M., J. Norton, and **K. Vaughan**. 2017. Quantifying the impact of grazing management practices on soil carbon storage in hummock-affected wetlands. High Altitude Restoration Science and Practice Conference. Fort Collins, CO. Poster presentation.
